New March 2 1888

My dear Dr Torrey

Your last letter from Dr
Gray contained a very
nice photograph of yourself
in which I can trace the
lineaments of a very old
& kind friend. With a very
thoughtful face, for which
I thank you very much
indeed. Dr G. bids me
send you of my father,
which I have fresh
pleasure in doing; & I
add one that I do not

platter myself into play
the counterpart in your
memory to what you has
done to mine.

I have asked Mrs Booth if
she can send you a Cante
de Visite of Dr Booth, I
hope that she will do so.

My mother is remarkably
well & living this winter
at Troy with my sister
Mrs Lamb

Believe me to be

Very sincerely
Yrs

J. B. Stokes
